

# EUROPEAN DEVELOPMENT NETWORK SUMMIT / 2019

**Dear Impact Makers;**

European Development Institute- EDI invites you to the EDN Summit 2019 which is organized under the roof of European Development Network, one of the most active networks working in the development field.

In the summit that will take place between November 25- December 2, you will extend your network by meeting professionals from more than 30 different institutions, you will have access to EU- funded project partnerships, you will get information about European Development Network and its services and in case of demand you will have the opportunity to be the official member of the EDN.

**Travel, accommodation, meals and event expenses will be provided by EDI.**

We are proud to host a summit for the future cooperations and we are looking forward to meeting you!

Sincerely,

Mustafa MEMIS

Founder, EDI

# The opportunities that will be offered within the scope of the EDN Summit

Within the scope of European Development Summit, participant institutions will take concrete steps in developing their corporate and individual capacities by having an access to the opportunities listed below. Within this framework, participants;

**1** - They will have a chance to meet approximately **50 people from more than 30 institutions** whose main domain is development and as a sub-branch focusing on **entrepreneurship & employment, creative industries and environmental issues**. They will extend their international network by improving interdisciplinary cooperations with NGOs, universities, municipalities, creative hubs, coworkings, private sector representatives and members from different range of networks.

**2** - They will develop **EU-funded Projects that will be applied for in 2020**, within the scope of their work domain and their needs, by means of joint working groups and workshops that will take place during the summit. (Erasmus+ KA2) By this means, they will get support from EDI's experienced project managers and thematic experts from various countries with the aim of accessing EU fundings.

**3** - They will get **expert support for EU Grants**, which they can benefit from within the scope of network's work domain, thus increasing their knowledge.

**4** - They will have an access to the good practice examples across Europe, within the scope of their work domain and network's thematic scope and they will have a chance **to transfer good practice** and be inspired by them.

**5** - They will be informed about the European Development Network, its members and services that they offer. On demand, institutions **will have the opportunity to be the official member of the network** and benefit from all the services the network offers in 2020.
