## National Agreement on the 2030 Agenda in Catalonia

Transforming Catalonia, improving the world:  
a shared commitment to sustainable development

### Introduction

On the 25th of September 2015, the United Nations Member States approved, via the "Transforming our World: the 2030 Agenda for Sustainable Development"<sup>1</sup> resolution, a new, unprecedented global plan of action with 17 Sustainable Development Goals (SDGs), adopted in the knowledge that "we are the first generation that can end poverty and the last that can still save the planet".

The interconnected challenges faced by our planet require urgent collective action; the task is immense yet unavoidable. In this context, the resolution approved by the General Assembly of the United Nations is a call for action between now and 2030, to build a better future for all, and especially for the millions of people deprived of the opportunity to live a dignified and fulfilling life.

The whole of Catalan society, from the Government to its citizenship, local government to the business sector and organised civil society, is firmly committed to the 2030 Agenda. Many of our public and private organisations are already working towards meeting the SDGs, and we want to share the work we have done and the work we intend to do, to maximise the results.

With the National Agreement for the 2030 Agenda in Catalonia and in the profound belief that we must advance collectively, we endorse the mandate of the Parliament of Catalonia, expressed through Motion 20/XII on the 2030 Agenda for Sustainable Development<sup>2</sup>.

- ❖ Holistic vision of the 2030 Agenda.
- ❖ Executive leadership and financial means.
- ❖ Foresee, wherever possible, alliance between various stakeholders.
- ❖ Achievable before 2030 and based on concrete actions.
