

Table topic: **Synergy for Sustainable Development – Joint Actions of Business and Administration**

Session Objective: The aim of this table discussion is to generate ideas for strengthening collaboration between the business sector and public administration in the context of achieving sustainable development goals (SDGs). Participants will work together to identify challenges, barriers, and best practices that can foster synergy in actions.

Sample Discussion Cards: *Participants draw cards and try to find the answer to the questions, while the facilitator supports the discussions and summarizes the conclusions*

Card 1: Models of Cooperation for Sustainable Development

- What forms of partnership between business and administration are most effective?
- What actions can support better coordination and knowledge exchange between these sectors?

Card 2: Transparency and ESG Reporting

- Should the public sector be subject to the same reporting requirements as the private sector?
- How can private sector reporting positively impact competitiveness?

Card 3: Education and Social Engagement

- What joint educational campaigns can raise awareness about sustainable development?
- How can local communities become more involved in initiatives supported by business and administration?

Card 4: Legal and Systemic Obstacles

- What regulatory barriers hinder joint actions for sustainable development?
- How can administration and business jointly advocate for legislative changes?

Session Summary:

At the end of the session, the moderator will summarize key insights and present the most interesting ideas generated at the table.
